Dunlop 4K series DP-22DF8836I5V-AELW smart PTZ dome cameras are able to capture high quality images in dim light environment with its laser IR light, which can reach up to 500m IR distance. Embedded with 1/1.9'' progressive scan CMOS chip makes true WDR (120dB) and 8MP real-time resolution possible. With the 36X optical zoom Day/Night lens, the camera offers more details over expansive areas.

The 4K series PTZ camera also features a wide range of smart functions, including face detection, intrusion detection, line crossing detection and audio exception, benefitting users with great improvement on security efficiency, more importantly, with key events / objects being recorded for further forensic needs. These features, combined with smart tracking, which enables the camera to detect any progressively moving object and follow it within the camera's area of coverage without fault. Smart Defog is further supported to improve image quality in challenging conditions.
